World Security Report is a bi-monthly electronic, fully accessible e-news service distributed to over 50,000 organisations globally. It tracks the full range of problems and threats faced by today's governments, security and armed forces and civilian services and looks at how they are dealing with them. It aims to be a prime source of online information and analysis on security, counter-terrorism, international affairs and defence.

WSR will inform and enlighten readers with up-to-date news as well as in-depth features, essential analysis and comment.

Get your products and services read and noticed by senior officials in government and non-government agencies, consultants and associates through World Security Report.

Border Security Report as a supplement to World Security Report, is the border management industry magazine delivering agency and industry news and developments, as well as more in-depth features and analysis to over 15,000 border agencies, agencies at the borders and industry professionals, policymakers and practitioners, worldwide.
